FLUTES

Hall Crystal Flutes are unique musical instruments with beautiful tones and elegant designs. Both beginner and accomplished musicians find them delightful because of their crystal clear tone quality. Hall Crystal Flutes are hand crafted using Borosilicate glass and are decorated with kiln-fired glass enamels and 22k gold, making each flute a work of art itself. Hall Crystal Flutes make great impulse sale items year around and also make popular gift items for Christmas, birthdays and other special occasions. Each flute is carefully hand tuned and shaped with a modern Boehm taper to produce a note range of two and one half octaves. Included with each flute is a fingering chart, dark green gift box, and a one year manufacturer's full warranty against accidental breakage.

HALL CRYSTAL PICCOLO IN "D" **Inline D Piccolo\$59.00**

2 octave range • Length: 11.1 inches • 281mm x 15mm • Primary Key: D • Secondary Key: G
Our highest pitched and smallest piccolo makes clean crisp sounds softer and mellower than the silver piccolo. The D piccolo plays one note higher than our C piccolo. Both piccolos are great for small hands, for the fingering holes are placed closer together than on our other flutes making it easier to cover the tone holes. The piccolo, being a higher pitched instrument, requires a tighter embouchure than the larger flutes.

HALL CRYSTAL PICCOLO IN "C" **Inline C Piccolo\$59.00**

2 octave range • Length: 12.5 inches • 317mm x 16mm • Primary Key: C • Secondary Key: F
Our lower pitched piccolo makes clean crisp sounds softer and mellower than the silver piccolo. The C piccolo plays one note lower than our D piccolo. Both piccolos are great for small hands, for the fingering holes are placed closer together than on our other flutes making it easier to cover the tone holes. The piccolo, being a higher pitched instrument, requires a tighter embouchure than the larger flutes.

HALL CRYSTAL FLUTE IN "G" **Inline or Offset G Flute\$79.00**

2 ½ octave range • Length: 16.6 inches • 421mm x 18mm • Primary Key: G • Secondary Key: C
Our middle sized flute produces a tone that is a cross between the piccolo and the D flute. The tone holes are spaced such that an average teen or women's sized hand can cover them. This is a good choice for the novice flutist.

HALL CRYSTAL FLUTE IN "F" **Inline or Offset F Flute\$89.00**

2 ½ octave range • Length: 18.5 inches • 471mm x 20mm • Primary Key: F • Secondary Key: Bb
Our F flute has a fingering stretch that is just slightly larger than the G flute. The tone carries some of the warmer, deeper tone qualities of the D Flute. While slightly larger than the G flute, this flute should still be playable by an average teen or women's sized hand.

HALL CRYSTAL FLUTE IN "Eb" **Inline or Offset Eb Flute\$100.00**

2 ½ octave range • Length: 20.6 inches • 523mm x 22mm • Primary Key: Eb • Secondary Key: Ab
This flute is very close in size and tone to our large D flute. It plays just one half step higher than the D flute. It is in the same key as the saxophone, so it is great for Jazz solos or playing along with your favorite Jazz recordings.

HALL CRYSTAL FLUTE IN "D" **Inline or Offset D Flute\$106.00**

2 ½ octave range • Length: 21.8 inches • 553mm x 22mm • Primary Key: D • Secondary Key: G
Our large D flute produces deep and beautiful mellow tones. This flute is highly recommended for the adult professional and novice players alike. The D flute is the easiest to play providing the finger holes can be sealed properly. The larger embouchure hole requires less air. The D flute's tone is deeper and mellower than our smaller flutes.

HALL CRYSTAL FLUTE IN "C" **Inline or Offset C Flute\$119.00**

2 ½ octave range • Length: 24.5 inches • 624mm x 25mm • Primary Key: C • Secondary Key: F
This is the largest and deepest flute that we make. The finger stretch on this flute is huge. I recommend this flute only for people with very large man sized hands. I would also recommend selecting the offset tone hole option for this flute.

Special Order Item: This custom item will be made upon request and does not come in our standard green box packaging.

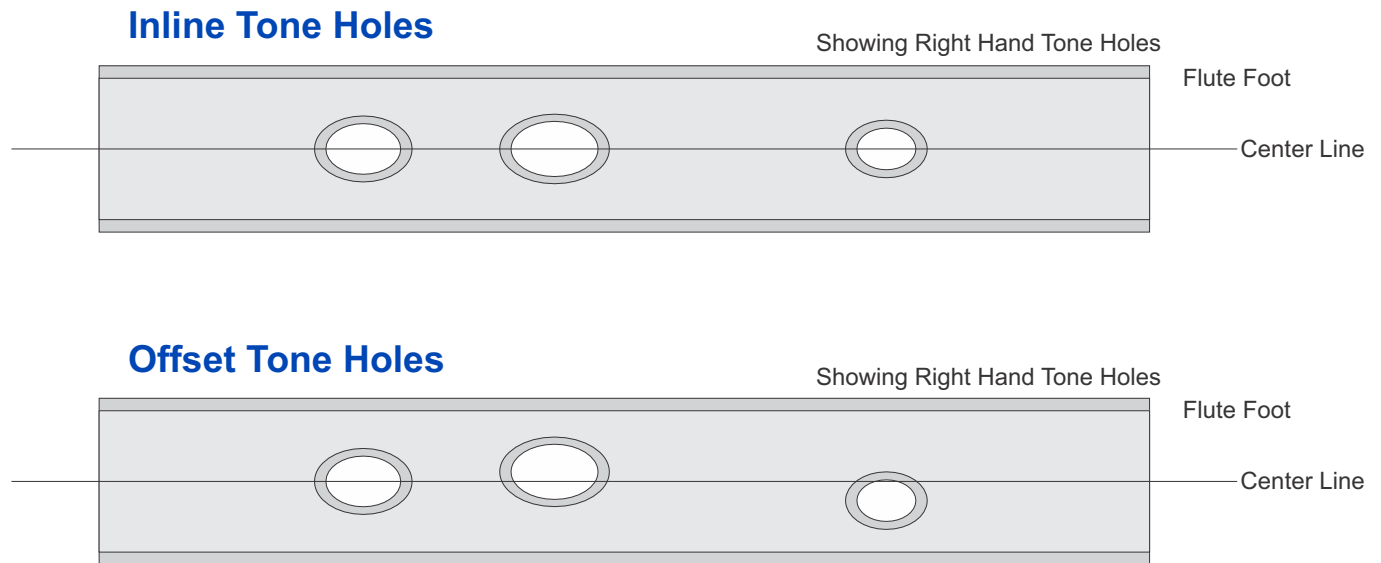

Available With Inline Or Offset Tone Holes

We are now offering an option for offset tone holes.

For traditional inline tone holes, all the holes are lined up in one straight line down the flute. This gives the flute a symmetrical look, but does not place the holes in the most comfortable position for playing the flute. For smaller and mid-sized flutes this generally is not a problem. But when you get into the larger size flutes where the stretch is slightly out of your comfort zone, switching to offset tone holes can make all the difference in creating a comfortable playing experience.

OFFSET TONE HOLES

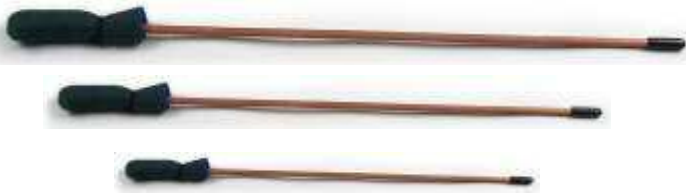

Normally, if the flute fits your hand size, one can easily play using in-line tone holes. But, as you reach the outer limits of your finger stretch, your fingers are more comfortable by rotating the holes slightly on the flute. The actual positions vertically on the flute can't be changed without changing the pitch, but the tone holes can be rotated around the flute without any change in pitch. For our offset tone holes, the first finger of each hand is in line with the mouth hole. The second finger is rotated slightly away from the hand. And the third finger is rotated closer to the hand. You can see this in the illustrations below.

To order your crystal flute with offset tone holes, simply change the first digit of the stock number. In-line flutes start with a “1” and Offset flutes start with a “2”. For example, a G flute with the Carolina decoration is item number 11702. The same flute with offset tone holes would be 21702.

Recommendations:

	D Piccolo	C Piccolo	G flute	F flute	EB flute	D flute	C flute
Man sized hands	In line				Offset		
Woman sized hands	In line			Offset			X
Older child sized hands	In line	Offset	X	X	X	X	
Younger child sized hands	In line	X	X	X	X	X	

CLEANING RODS

The Hall Crystal Flute cleaning rod is a quality tool, made from 100% cotton flannel over a foam core. It is designed to fit the bore of each flute. Only one pass is needed to remove accumulated moisture and restore the flute's clear tone. Cleaning rods come in three sizes.

LEARNING THE HALL CRYSTAL FLUTE

This book describes the basic skills necessary to play the flutes. It covers the methods for holding the flute, producing a sound, playing the lower and upper registers, single, double and triple tonguing, staccato notes, changing octaves, half tones, and complete fingering charts for all models of Hall

Crystal Flutes. The CD plays the songs in the book and includes additional instruction.

- 5015****\$10.00**

HALL DULCIMER NOTERS

Hall dulcimer noters are made of borosilicate glass with beautiful kiln-fired Celtic decorations. Glass noters produce a unique hammered sound and have a "fast" action compared to wooden noters. Glass noters produce a bright sound and you hear distinctive sliding tones. They are not quiet and not meant to replace your wooden noters. With some songs, you will prefer a quiet wooden noter, while other songs will be enhanced by the percussive sound of glass and will add a whole new dimensions to your dulcimer playing. Glass noters will make a fun addition to your customer's noter collection and are sure to attract the attention of your dulcimer players.

HALL GUITAR SLIDES

PYREX GLASS GUITAR SLIDES

AVAILABLE IN SIX SIZES FOR A PERFECT FIT

A professional slide needs to have a perfect fit. Guitar players come in all sizes, so we have six sizes of guitar slides - each just 2 mm apart. The comfort of a Hall Guitar Slide can't be beat.

TWO LENGTHS - SHORT AND STANDARD

Our guitar slides now come in two lengths. Our standard length slide is 2 1/2 inches (63mm) long. For players who prefer more flexibility, we now offer a shorter slide that is 1 1/4

PACKAGED SO YOUR CUSTOMER CAN TRY IT

Each slide comes carded and ready for display. Our package includes eye catching gold foil stamping and our exclusive "Try Me" packaging. The plastic has been removed from one side of a guitar slide so your customer can try it on without destroying the packaging.

YOUR CHOICE - CLEAR OR DECORATED

For your customers who like clear glass, we have our complete line in clear Borosilicate glass priced to sell. We also have slides with kiln-fired decorations on the inside of the slide. It adds a slight texture, a nice feel, a great look.

C-605	Deluxe gift set (whistle, book, CD, pouch, brush)	\$51.50

CLARKE WHISTLE ACCESSORIES

Leather pouch

LEATHER WHISTLE POUCHES

The new Clarke Tinwhistle carrying pouch is made especially for 'C' or 'D' Tinwhistles to keep them safe and sound wherever you go. Individually hand sewn from genuine soft grain leather and fitted with a magnetic button closure and accessory ring. This is the ideal accessory for whistlers on the move.

- C-705** D - Tinwhistle Leather Travel Pouch **\$10.00**
- C-706** C - Tinwhistle Leather Travel Pouch **\$10.00**

Cleaning Brush

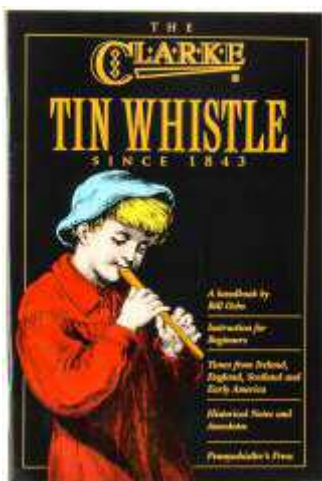

CLEANING BRUSH

The Clarke Tin Whistle Cleaning Brush features tapered nylon bristles to match the bore of the tin whistle. The top end of the brush is plastic tipped so it is smooth. The length of the handle is plastic coated for a comfortable grip and the bottom has a large metal loop for hanging. This is not a swab for removing moisture but more of a soap and water deep cleaning brush for occasional use as necessary to keep your tinwhistle clean and healthy. Do not soak your whistle and make sure to prop the whistle up to drain and allow your tinwhistle to completely dry after cleaning before putting it away. If you drink tea like all proper English Tin whistlers should, smile, it is multi-purpose and makes an excellent tea spout cleaner.

- C-703** Cleaning brush for all Clarke whistles **\$6.50**

Clarke Tin Whistle Tutor – Book/CD

Now you can learn to play Clarke Tinwhistle with the help of this charming 80 page handbook and 74 minute instruction CD. No previous musical training is necessary. All the basics of playing are carefully presented, one step at a time. The lessons are so easy to follow that a complete beginner can learn to play a simple tune at first sitting. Intermediate and advanced players will enjoy exploring the books exciting collection of traditional music from Ireland, England, Scotland, and early America. There are 86 pieces in all – jigs, reels, horn pipes, fife tunes, highland flings, Morris dances and a lot more. The instruction CD makes learning the tunes fun and easy.

History of the Clarke Tinwhistle

By Norman Dannatt

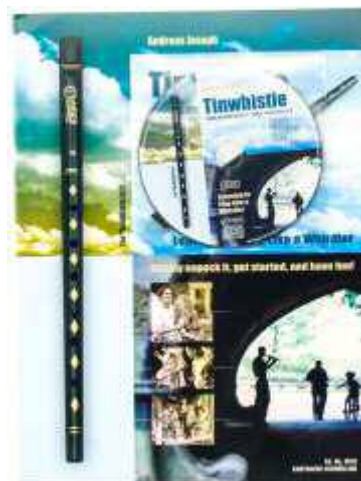

When Robert Clarke invented his Tinwhistle in 1843, little did he know that his humble little instrument was destined to become a very popular player of tunes in the folk music world. This is the story of how it happened.

94 pages of historical photos and text.

Tinwhistle by Andreas Joseph – Book/CD

This book offers you a course for playing the Tinwhistle based on pedagogical instruction. It was especially developed by music educator Andreas Joseph, who has dedicated his life to the Tinwhistle, it's music, and especially to instructional aids for learning to play. His method makes it possible to learn this instrument quickly and easily. The course is especially suitable for group or individual music students as well as for self instruction. Well-known songs from all over the world, with clear notation and helpful hints ensure fun while learning to play music on the Tinwhistle.

This book contains 48 pages. Includes Tinwhistle fingering chart, 44 tunes and instructional CD.
